2012 CHURCH NEEDLEWORK FOR ALTAR LINENS

Welcome to Williamsburg

You are invited to attend our new 2012 Church Needlework Classes in fine hand embroidery at The Williamsburg School of Needlework located at New Town in Historic Williamsburg, Virginia. We offer training in Old World embroidery techniques used in the manufacture of our fine hand made linens used for the church altar. You will obtain the same professional embroidery skill techniques that are employed in both our Williamsburg linen studio and our workrooms in Europe.

Other classes and workshops offered in 2012 will be our popular full day workshop on the Church Linen History, Caring for Church Linen, and How to Restore and Repair Church Linens.

These will be offered starting in Spring of 2012. Your altar guild members, priests, and sacristans will find these courses very helpful in the maintenance and care of linen sacristy collections.

We will show you how to apply Old World skills in linen care to our 21st Century lifestyles.

Linen Embroidery

Based upon our own European workroom standards, we offer classes in fine hand embroidery. These are the same skill techniques we use to create our own hand embroidered linens. Our knowledge in the techniques of hand embroidery is offered in three distinct classes or workshops. We can provide the novice to the most experienced of embroiderers classic techniques to master and use for embroidering linen. These are accelerated teaching sessions and must be practiced both at hotel and home to achieve good results. Classes require two days per class to accomplish. It is possible to take more than one class since the classes are consecutive.

Basic Embroidery

2-3 Hour Sessions

Session I: An introduction class to the traditional techniques of hand embroidery. Basic embroidery stitches will be taught. A sampler of stitches will be provided which includes all materials necessary to accomplish the work. Stitches and techniques are given during class time, but should be practiced at home/hotel to be effective.

Session II: A sampling of basic stitches will be continued with practiced techniques reviewed and refined during this session. This will be a full session focusing on the learned techniques and reviewing progress that has been made during the first session. Techniques will be monitored during this session. A real linen project will be given in which to implement the basic embroidery stitches learned during class time.

Total Class Hours: 6 hours with class materials provided.

Prerequisite: Beginners Welcome
